

[1/2/2023]

[Software Eng. Meeting-1]

Attendees: All present

Agenda: Discussion about the topics allotted by the course instructor

Summary: We all spoke about the different topics that were offered to us and decided on some in decreasing order of our preference. A few issues regarding the implementation of our project and what and how we will present our topics. Also chosen was the group leader.

RoundTable: As of right now, the frontend and backend will make up the bulk of the overall group. The assignment of frontend and backend to a member is still on the to-do list because the topic has not yet been assigned to us.

[4/2/2023]

[Software Eng. Meeting-2]

Attendees: All present

Agenda: Preparing for the implementation of the project

Summary: A quick discussion of what we'll be including in our project. Everyone in the group decided to create a part of the static web interface. Additionally, it was determined that everyone would study some technology during this one-month time.

[16/2/2023]

[Software Eng. Meeting-3]

Attendees: All present

Agenda: To know the progress and difficulties if any people are facing while learning the technologies.

Summary: A short meeting, discussed a few problems and platforms from where properly we could learn the technologies.

RoundTable: The major development phase of the project has not yet begun; it will do so in a few days.

[26/2/2023]

[Software Eng. Meeting-4]

Attendees: All present

Agenda: To know the progress and difficulties if any people are facing while learning the technologies.

Summary: A short meeting, discussed a few problems and platforms from where properly we could learn the technologies.

RoundTable: The major development phase of the project has not yet begun; it will do so in a few days..

[10/3/2023]

[Software Eng. Meeting-5]

Attendees: All present

Agenda: To know the progress of people, the technologies learnt, further decisions to be made.

Summary: After doing a general assessment of the development of the learned technologies, we chose to work with Javascript as the language and NodeJS as the runtime environment for Javascript.

RoundTable: For now, everyone will be working on the documentation part extensively followed by segregation in frontend and backend teams.

[28/3/2023]

[Software Eng. Meeting-6]

Attendees: All present

Agenda: To decide the frontend structure, segregation in frontend and backend teams.

Summary: The frontend structure was chosen, then the frontend and backend personnel were divided. Since the backend work required more specificity than the frontend, the majority of them were placed in frontend.

RoundTable: Now that the teams are working on their assigned tasks, the progress will be reviewed in the ensuing meetings. The front-end team will work using a fundamental idea as a guide and the meeting-decided framework.

[2/4/2023]

[Software Eng. Meeting-7]

Attendees: All present

Agenda: To prepare for the mid semester evaluation, how much have the frontend and backend teams progressed, to know the SRS progress, and diagrams.

Summary: Both the use case and activity diagrams are prepared. Activity and use case diagrams have been added to the SRS, which is now under construction. Prepared a presentation for the midterm evaluation.

RoundTable: Both the frontend and backend teams have made the static version of the project with some of the functionalities discussed.

[20/4/2023]

[Software Eng. Meeting-8]

Attendees: All present

Agenda: Discussion about the integration of frontend and backend and review the progress.

Summary: We discussed the integration of the project, also discussion about testing was done, a review was done on the frontend and the backend teams.

RoundTable: Frontend team is done with the designing of the web pages. Backend teams have completed the development and are making progress with the integration part.

[23/4/2023]

[Software Eng. Meeting-9]

Attendees: All present

Agenda: To divide the documentation work, discussion about the integration and testing.

Summary: The final documentation work which needs to be presented was divided amongst everyone, integration work was discussed, and is already in progress.

RoundTable: Frontend team is done with the designing with the web pages along with the actions. A few problems were resolved and integration has also started.

[25/4/2023]

[Software Eng. Meeting-10]

Attendees: All present

Agenda: Review of final SRS, integration, start with the making of presentation.

Summary: SRS is completed, integration is also done, what all to be added in the presentation slides also discussed.

RoundTable: Powerpoint slides in progress.

[27/4/2023]

[Software Eng. Meeting-11]

Attendees: All present

Agenda: Final review of everything

Summary: Everything reviewed successfully.

RoundTable: Everything reviewed successfully.
